

**TABLE OF CONTENTS**  
**Chapter 500, Stormwater Management Law**

<b>1. Introduction .....</b>	<b>1</b>
<b>2. Applicability .....</b>	<b>1</b>
<b>3. Definitions.....</b>	<b>1</b>
<b>4. Stormwater treatment standards .....</b>	<b>3</b>
A. Basic standards .....	4
B. Resource protection standards.....	4
C. Phosphorus standards.....	6
D. Flooding standards.....	6
E. Addition requirement in impaired urban stream watersheds .....	8
<b>5. Other applicable protection standards .....</b>	<b>8</b>
A. Groundwater protection (infiltration) standards.....	8
B. Easements and covenants .....	9
C. Discharge to freshwater or coastal wetlands .....	10
D. Threatened or endangered species .....	10
E. Additional controls .....	10
F. Authorization for discharges to public storm sewer systems...	10
<b>6. Elimination or reduction of existing off-site sources and compensation fees .....</b>	<b>11</b>
<b>7. Submissions .....</b>	<b>12</b>
A. Pre-application meetings.....	12
B. Design requirements.....	12
C. Basic standards submissions .....	12
D. Permit by rule.....	13
E. Resource protection and phosphorus standards submissions ...	14
F. Flooding standards submissions .....	14
G. Long-term maintenance .....	15
H. Transfer.....	15
I. Modification .....	15
<b>8. Municipal programs .....</b>	<b>15</b>
<b>9. Conditions of approval .....</b>	<b>16</b>
<b>10. Recording of order.....</b>	<b>18</b>
<b>11. Severability.....</b>	<b>18</b>
<b>12. Transition .....</b>	<b>18</b>
<b>13. Permit shield .....</b>	<b>18</b>
<b>14. Experimental measures .....</b>	<b>18</b>
<b>Appendices .....</b>
